What Is GeoCaching?

GeoCaching is a relatively new sport attracting thousands of players both nationally and internationally. Often described as a “**High-tech Treasure Hunt**”, it utilizes Global Positioning System (GPS) Receivers and the Internet to locate hidden “treasure”, known as the “cache”.

GeoCaching Race Process

Participants set forth in small teams with a pre-programmed GPS unit containing coordinates. Players follow these coordinates in order to seek out the locations of a series of hidden Caches. In addition to GPS coordinates, players will also be provided a set of physical clues to help them in their quest.

Teammates work together, combining problem solving with outdoor adventure to work toward the goal of locating these hidden caches. Teams race against one another and the clock, to locate the most hidden caches, and return to the home base before the other team.

Points will be given for each Cache located in a specific time frame. Once the clock winds down, players must make their way back to the home base with all the point cards collected. All point cards will be added. Penalty points will be assigned to teams returning late.

The team with the most points at the end of the race will be considered the winners.

Types of Courses

Courses can be easily customized to meet the demands of the general public, as well as those of individual groups.

Contact Spring Mountain Toll Free at: 1-888-305-5044 to schedule your group. Group discounts are available for groups of 12 participants or more.

Course Levels:

GeoCaching Course Level 1 – At a lower level of difficulty this course is perfect for groups of first time adventurers, and is appropriate for all ages and experience levels. Caches are hidden on easy terrain.

GeoCaching Course Level 2 – At an intermediate level of difficulty this course is perfect for groups of all ages and adventure levels. Caches are hidden on moderately challenging terrain. Perfect for people who have succeeded at the Level 1 course.

GeoCaching Course Level 3 – At a high degree of difficulty this course is perfect for those adventurers seeking an intense GeoCaching experience. This level is by request only, and is recommended for experienced individuals. Caches are hidden on somewhat difficult terrain, and may be more difficult to locate than those caches for Level 1 or 2. Ideal for groups of enthusiasts and may be arranged as a custom program in advance.

Groups will be led by a GeoChallenge Adventures Tech Lead.

The Tech Lead will serve as a referee and safety monitor for their respective team. They will utilize hand-held radios to keep in communication with the Home Base for safety purposes.

In addition, they will also monitor the teams, to make sure that all team members stay within the group, as well as to ensure that participants abide by all the safety and ethical rules set forth.
